

Publikationsliste Dr. Alexander Kreß 2011/2012:

1. Excellent results with cementless total hip arthroplasty and alumina-on-alumina pairing: minimum ten-year follow-up.

Kress AM, Schmidt R, Holzwarth U, Forst R, Mueller LA.

Int Orthop. 2011 Feb;35(2):195-200. Epub 2010 Nov 16.

2. Prospective study of a cementless total hip arthroplasty with a collum femoris preserving stem and a trabeculae oriented pressfit cup: minimum 6-year follow-up.

Nowak M, Nowak TE, Schmidt R, Forst R, Kress AM, Mueller LA.

Arch Orthop Trauma Surg. 2011 Apr;131(4):549-55. Epub 2010 Oct 6.

3. Quantitative computed tomography-assisted osteodensitometry of the pelvis after press-fit cup fixation: a prospective ten-year follow-up.

Kress AM, Schmidt R, Vogel T, Nowak TE, Forst R, Mueller LA.

J Bone Joint Surg Am. 2011 Jun 15;93(12):1152-7.

4. Periprosthetic femoral bone reaction after total hip arthroplasty with preservation of the collum femoris : CT-assisted osteodensitometry 1 and 3 years postoperatively.

Schmidt R, Gollwitzer S, Nowak TE, Nowak M, Häberle L, Kress A, Forst R, Müller LA.

Orthopäde. 2011 Jul;40(7):591-8.

5. Comparison of cortical and cancellous bone remodeling of the pelvis after press-fit cup total hip arthroplasty dependent on patient and prosthesis-specific characteristics: a computed tomography-assisted osteodensitometry study in vivo.

Zingler K, Häberle L, Kress A, Holzwarth U, Forst R, Mueller LA, Schmidt R.

Biomed Tech (Berl). 2011 Oct;56(5):267-75. Epub 2011 Sep 5.

6. Periacetabular Cortical and Cancellous Bone Mineral Density Loss After Press-Fit Cup Fixation A Prospective 7-Year Follow-Up.

Schmidt R, Kress AM, Nowak M, Forst R, Nowak TE, Mueller LA.

J Arthroplasty. 2012 Jan 5. [Epub ahead of print]
